

PRESS RELEASE

Apical Dumai Supports Communities and Local Integrated Healthcare Centre in Commemoration of RGE Founder's Day 2020

Dumai, 29 December 2020 - In commemoration of RGE Founder's Day, PT Sari Dumai Sejati (Apical Dumai) distributed 170 food packages to the fishing community in Lubuk Gaung District and its neighbouring residents. The company also helped revitalise a local integrated healthcare centre with a new coat of paint and a donation of benches.

This year's Founder's Day was held to refresh the business philosophy espoused by RGE Founder and Chairman Sukanto Tanoto, known as 5C's, in which a company is to create value for the community, country, climate, customers and the company.

Apical Dumai's SSL Manager Ferry Siahaan handed over the food packages to the Secretary of the Indonesian Fishermen's Association (HSNI), Syamsuri, Chair of the Suka Bumi Health Clinic, Ruslina, Principal of SDN 01 Elementary School, Aslinda S.Pd, Principal of SMKN 1 Junior High School, Drs. Dian Dini, the head of RT 005 and head of RT 007 along with local community leader Haji Syafii.

Mr Ferry Siahaan expressed his appreciation to all stakeholders for the existing good relations with the community and hoped this would continue to strengthen over time.

Lina, Chair of the Women's Group as well as the Chair of the local integrated healthcare centre, expressed her gratitude to Apical Dumai for improving the local integrated healthcare centre and its amenities, and also developing women's farmer groups.

"The support from companies like Apical Dumai and the courage of the medical personnel are truly heroic during these difficult times. We are confident that we can overcome all of this. We hope that in the future, expectant mothers and toddlers can fully benefit from the integrated healthcare centres (Posyandu)," added Lina.

About Apical

Apical Group Ltd is one of the largest exporters of palm oil in Indonesia, owning and controlling an extensive spectrum of the palm oil business value chain from sourcing to distribution. It is also engaged in the refining, processing and trading of palm oil for both domestic use and international export. Its operations are located in Indonesia, China and Spain, and include five refineries, three biodiesel plants, an oleo-chemical plant and a kernel crushing plant. Apical's business is built on a broad sourcing network in Indonesia with integrated refinery assets at strategic locations in Indonesia and China. These are strengthened by efficient logistic channels supported by Apical's own infrastructure to deliver to a wide range of clients from international trade houses to local industrial buyers. With its unique business model, Apical has been able to control product quality and address sustainability and food safety issues, while running highly efficient operations at its world class refineries and integrated storage and bulking facilities.
